| Wall plate             | 580 x 140 mm                                                                                                                                           |
| Wall-to-bolt clearance | 420 mm                                                                                                                                                 |

The swivelling and tiltable wall mount holds your speaker at the angle you want. The mount has 11 different tilt settings moving through 22°. The swivel is adjustable to any angle. The patented expanding mandrel for loud speakers with cabinet interiors of diameter from 35 to 37 mm is tightened with a key for a non-wobble and low-resonance speaker fit.
